Tales of misery and woe ... In the closing weeks of May 2014 just as we were returning from our USA ministry trip, we were faced with another weather pattern unfolding across Europe; this time Bosnia & Serbia. It dumped a phenomenal amount of rain in one weekend - 3 month's worth! (The dark blue water on the map shows the national coverage.)

Widespread flooding & 3000 landslides ...

triggered a threat to overtake towns, cities, villages and hamlets and a deadly 'secret' was uncovered...

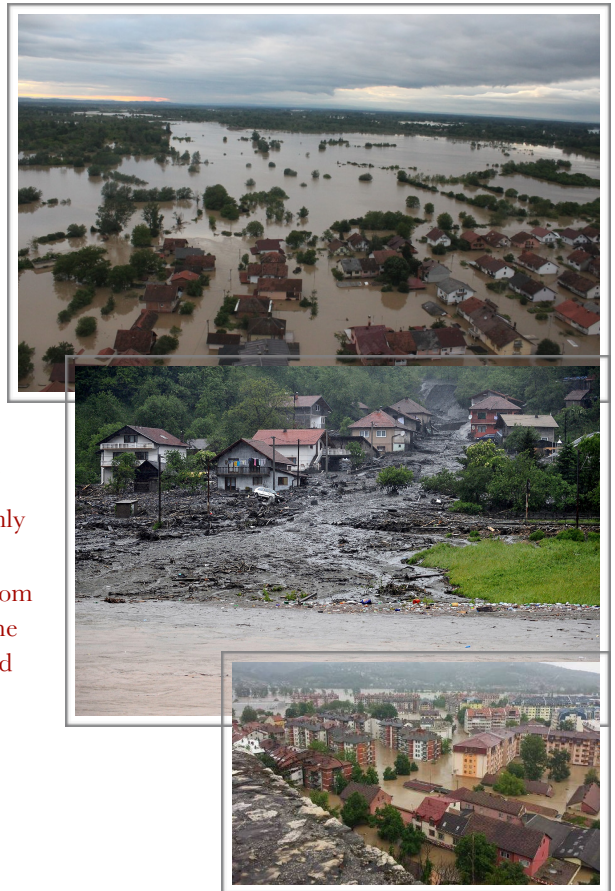

Land Mine

Alert! Not only have the 'live'

mines begun to surface from the 1990's war, but also the warning signs that marked unexploded danger spots

have moved. Some mines have been found in people's gardens.

Project 'FLOODGATES'

We work in two of these strategic countries, Serbia as well as Bosnia who sent this picture of one of the churches in Breza. Thankfully, our fully laden 40ft truck carrying T10 of aid arrived safely in Sarajevo and goes some way to help. However, we are endeavoring to assist them in the immediate term with financial aid... please would you pray and consider sending a gift for them. Pastor Sasa of Sarajevo and Pastor Aleksander of Novi Sad are on to it and are well able to co ordinate the 'needs and supply' chain
