*'Lord, save me from this addiction..'* was the last desperate cry for help that no other could give. This is Pāvel Grebennikov a Russian man brought up by his grandmother after his parents died; he was aged 6years. Subsequently, his grandmother died and he was sent to an orphanage. As an eighteen year old, he made his way to Estonia where he met the Lord and began to serve Him

After being severely 'derailed' by The influence of his girlfriend, he got into trouble, heroin addiction and served time in prison. One day, he cried out to the Lord ... and the Lord heard and answered him!

**Village Of Hope** took him in on their rehab programme and during his first weeks there, he was not fully committed to change. But one day he remembered that

time in prison when he prayed that desperate prayer and realized only Jesus could give a future and a hope of a better life. His hunger and thirst increased and he graduated from the VOH programme fully restored, healed and free. His desire is to serve the Lord and spread the message of hope to others.

**A place for Pāvel?** We were asked to sponsor him for one year at Baltic School of Ministry, LATVIA. He is our 5th Student from Estonia. Last year's students, Raimon and Svjatoslav, graduated in May this year. Raimon has taken up a training position at VOH ..thank you for praying for them and sponsoring them... **now it is Pavel's turn...can you help support him?**

We are needing \$1500 to cover all his expenses....we would greatly value your contribution this year, here's how...
